EDUCATION

B.S. Computer Science   **Dec 2015**
Brigham Young University, Provo, UT

RELEVANT EXPERIENCE

Software Developer   **Nov 2015-Present**
Router Limits, Layton, UT

- Took on lead frontend developer responsibilities in a small software company, requiring the ability to perform tasks with very little direction or management and to learn quickly.
- Designed, architected and developed Android and iOS apps using C# with Xamarin forms.
- Developed a complex AngularJS progressive web app comprising of a white-labeled user portal serving Router Limits' end users, as well as end users of various ISPs and commercial partners.
- Created REST API endpoints on a Node Express server with mySQL and Redis data persistence.
- Wrote Chrome Extensions using Typescript and Angular.
- Wore many hats including Designer, Architect, Developer, Support and gladly helped at sales events.

Software Engineer Intern   **June 2015-Aug 2015**
Lockheed Martin Mission Systems and Training, Orlando, FL

- Worked on F-14 training simulation software using C# .NET and WPF.

Full Stack Programmer   **Apr 2014-Nov 2015**
Missionary Training Center, Provo, UT

- One of 5 developers working on a 2.2-million-dollar missionary chat application found at Mormon.org which is exposed to 650,000 users per month.
- Wrote code for a Java Spring and Oracle SQL backend API and an AngularJS/Sencha frontend.
- Worked in an Agile Scrum environment using Jira for 3 week sprint management.

Product Marketing Intern   **Sept 2013-Dec 2013**
Go GungHo Inc., Provo, UT

- Came up with and developed a Java program interfacing with the Twitter API which could be used to contact 1000 new prospective customers from the company's target market per day.

SERVICE

International Volunteer Leader   **Oct 2008-Oct 2010**
Brazil, Londrina LDS Mission

- Trained and mentored a group of about 30 missionaries in a leadership position.
- Learned to communicate fluently in the Portuguese language.
